Reference

Dear Sir,

I enclose herewith a letter received from Messrs. Howden Overseas Trading Co. Ltd., relative to three sets of Machinery made by Messrs. Davey, Paxman & Co., to the order of the British Ministry.

The reports were forwarded to London between the Months of May and July 1920, and the Engine numbers are 13752 - 13753 & 13754.

With reference to Messrs. Howden's remarks that their London Office had written to me regarding Certificates for these engines, I have to state that I am unable to trace ever having received any communication on the subject, had I done so, they would have been referred to you.

I am, Dear Sir,

Yours faithfully,

A. E. Salmon

The Secretary,
LONDON.
