## Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

of Ship Surveyor

Received from Chief Ship Surveyor

11th October, 1932.

Rpt. Lth.

No. 18282

NAME Steel S.S. "WANDLE"

One of the Chief Ship Surveyors are asked on this case for the consideration of the Classing Committee.

The undersigned surveyor has examined the steel wire supplied and has found it to be of the same quality as that required and has also presented to the Classing Committee a report on the same.

Dear Sirs,

With reference to Mr. Edwards' First Entry Report No. 18282 on the steel screw steamer "WANDLE", Messrs. The Burntisland Shipbuilding Co's Yard No. 173, I shall be glad if you will be good enough to forward particulars of test of the steel wire supplied. Sunderland Surveyors be requested to give the case the need. It is concluded that the thickness of the bridge deck plating is as approved, but you should state if this is so.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

LEITH.
