Sunderland, 4th April, 1950.

AND .....

Dear Sir,

"FELIPES" Sunderland Report 1, 35307

With reference to your classing letter on the above vessel, we have to confirm that the main frames in the engine space are fitted of the size approved, namely - 8" x 3 $\frac{1}{2}$ " x .42" and not 8" x 3 $\frac{1}{2}$ " x .40" as stated in our report and we regret this clerical error.

We also have to confirm that the rule requirements have been carried out in all respects with regard to the pumping arrangements and electrical lay-out.

Yours faithfully,  
THE SURVEYORS,

PER:

*Alfred J. S. Sheffer*

*B. D. W. ...*

The Secretary,  
LONDON.
