vessel is eligible for THE
RECORD DBS (eng. room) 9.52

2-4 16.10.52

Rpt. 9a.

Port of

Copenhagen

Continuation of Report No.

13969

dated

27th. Sept. 1952

on the

Steel Tine L. JUTLANDIA.

(cont.)

With reference to the 7E form received in this Office
9th. Aug. 1952 we beg to state that the main engines are 5 cylinder
jets and N: 8 formals are not available.

Donkey boiler Survey.

The eng. room Donkey boiler examined internally and
externally together with the principal mountings and all
found in good condition.

The Safety valves adjusted under steam to the W.P.

The oil fuel and steam smothering installation gene-
rally examined and tested under working conditions.

Copy of Interior Certificate issued enclosed.
