"PERA I" - As recommended. It is concluded that the FW and OF tanks were tested in addition to being internally examined, but please confirm this.

8048 "PARANAGUA". This ship has now been classed #100A1 "MT and Def. vegetable oil" together with the appropriate notations recommended by you. It is concluded that the proposal to fit ice stiffening for assignment of "Ice Class 3" was not proceeded with, but please confirm this. Please endorse the attached Forging Certificates as having been examined "in the finished condition and found satisfactory".

"PENSA". The Kiel Surveyors have reported that a number of defects were found in the port boiler last month, and have recommended that repairs should be carried out by the end of this month. I shall, therefore be glad if you will advise the Owners accordingly, and request them to make the necessary arrangements for this work to be carried out by the time stated.
