RLT/CB

Dear Sirs,

Motorship "FALSTRIA"

When this ship was at Bangkok last month the Surveyor reported that the white metal of the main engine No.1 centre top end bearing (after, lower half) was found cracked with a small area missing.

It has been recommended that the main engine No.1 centre top end bearing (aft lower half) be renewed by the end of February, 1965 and class has been continued subject, inter alia, to this matter receiving attention by that time.

Please inform the Owners accordingly.

Yours faithfully,

pro Clerk to the
Classification Committee.

The Surveyors,
COPENHAGEN.
