6th October, 1950.

Dear Sirs,

H.

With reference to your letter of the 9th August last respecting the Motorship "SAN PEDRO", I have to inform you that in reply to enquiry regarding the completion of the Donkey Boiler Survey the New York Surveyors write as follows under date of the 15th ultimo:-

"The Owners inform me that the master of this vessel has been instructed to complete the Donkey Boiler Survey by the adjusting of the safety valves of the oil fired boilers on her next call to a U.K. port about the middle of next month".

It is observed from the Shipping Papers that the vessel is shortly due at your port and I shall therefore be glad if you will give the case the necessary attention in due course.

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,

SWANSEA.
