I shall be glad if you will ascertain from the Owners and let me know what arrangements they propose making to complete the Donkey Boiler Survey by the adjustment of the safety valves of the oil fired boilers. This survey became due at the end of November last.

The owners inform me that the master of this vessel has been instructed to complete the Donkey Boiler Survey by the adjusting of the safety valves of the oil fired boilers on her next call to a U.K. port about the middle of next month.
