Dear Sirs,

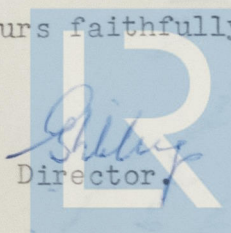

m.s. "DUNERA"  
Proposed Modifications

Further to our discussions with your Mr. Irwin and Mr. Lockhart of the Ship's Plans Department, we enclose herewith our proposed arrangements for the erection of a permanent swimming pool on the above ship. The pool is to be of steel construction and to be sited in the existing hatch coamings on the Shelter Deck ('C' Deck) as indicated on the plan.

We also enclose a plan showing our proposed re-arrangement of the seating in the Assembly Hall also on the Shelter Deck. In order to improve vision in this space, we are requesting permission to move the pillars P. & S., at present situated at approximately Fr. 81, on to Fr. 84 which is about 4'-6" further forward.

It is expected that these modifications will be carried out later this year at a convenient opportunity, but as we wish to have the work costed as soon as possible we look forward to having your early approval of these drawings.

Yours faithfully, © 2021
