PORT OF GLASGOW

1 Plan Encl.

21st February, 1947.

Dear Sirs,

Messrs. Rankin & Blackmore Ltd. S.O. 119.
S.S. "TEMPLE ARCH". CONVERSION TO OIL BURNING.

E.

I return herewith one copy of the plan of Pumping Arrangement in Machinery Space submitted with your letter of the 13th instant and have to state that the same will be approved, provided the arrangements be as shown and amended thereon and the remaining requirements of Sections 20 and 34 of the Society's Rules (1946-47) be complied with so far as they are applicable.

It is noted that the General Service Pump is connected to the ballast main which may be contaminated with oily water, and since it appears that this pump may be used for feeding the boilers, the connection to the ballast line should be blanked off as now shown in red on the plan.

The remaining copies of the plan have been retained for record purposes.

I am, Dear Sirs,
Yours faithfully,

Local Secretary.

The Surveyors,
GREENOCK.
