Dear Sirs:

Re: s.s. "WINONA"

I sincerely appreciate for your trouble in cabling to the Committee in London concerning the above vessel.

As this ship had been committed to load sugar at Taiwan very urgently and must arrive in time before cancelling date, and in view of the repairing works for general examination will take several days to complete, I am informed to sail the vessel in ballast to Taiwan as soon as possible.

I, therefore, request you will kindly extend the certificate for the voyage to Taiwan only, which will take about ten days.

Hoping you will please accede my request as above.

Yours faithfully,
