LONDON, E.C.3.

14th July, 1944.

Dear Sir,

Lithgows' No.997.  
Fan Motors.

We would refer to your letter of the 10th July addressed to the Axia Fan Company with reference to the tests of the 8.25 h.p. fan motors under service conditions carried out at their Works on July 6th.

The Admiralty M.S. Department, Dorland House, were interested in this situation and are duly relieved to hear that you have found the motors to your satisfaction.

The Admiralty would be grateful if you would inform your Surveyors in Canada, who will be asked to accept this ship in her completed condition, that you have found these motors satisfactory, in order that there is no possibility of any adverse criticism being raised by them in Canada.

Yours faithfully,

J. & E. HALL, LTD.
