Telegrams: Committee, London, Telex
Telex No.: 24305

Telephone: ROYal 9166

8th May, 1961.

Reference: DWH/MC

Dear Sirs, of this letter is being sent to the Society's
Surveyors at Hamburg.

Steamer "STANLAND"

The case of the above named ship has been under
consideration today in connection with your letter of
the 4th instant.

In reply I regret to inform you that for the
following reasons the Committee do not see their way
further to advance the date of the Special Survey assigned
in this instance.

You will recall that the Special Survey was
actually held in October, 1957, after which the ship
was laid up; and, in accordance with your request in
June, 1960, a General Examination was held with a view
to the date being amended to SS 6.60 (Adv.). This
means that the next Special Survey will not fall due
until June, 1964, by which time the double bottom tanks
will not have been seen for nearly seven years and, if
your present request were granted, they would not be
seen for about eight years. This would be quite
contrary to the spirit of the Society's Rules and the
Committee, therefore, consider they would not be
justified in granting any further concession in this
instance.

I would add, however, that should you so desire
the Committee would be prepared to advance the date
of the Boiler and Screwshaft Surveys from 6.60 to 5.61,
if you arrange for the boilers to be again generally
examined internally and externally to ensure that no

expains at Hamburg 6.60 for advancement of the Social Survey which was assigned SS 8.00 (adv.) A copy of this letter is being sent to the Society's Surveyors at Hamburg.

The Owners now request in letter dated 5.61 a further advancement of the Special Survey date. Yours faithfully,

If this further request is agreed to a notation 'SS 6.61 (adv.)' would be assigned. c.c. Ham. would mean at the next Special Survey would become due in 6.65 with a possibility of a year of grace, making a period about 9 years without a full Special Clerk to the

Classification Committee.

The ship will then be 24 years of age and in the circumstances it is considered that no further advancement of the Special Survey date should be granted.
