LLOYD'S REGISTER OF SHIPPING

14 Blythwood Square,
GLASGOW, C.2.

T.22.

April 8, 1949.

Dear Sirs,

S.M. "DORABELLA"

This ship, which was originally an American built L.C.L., is at present undergoing special survey and conversion to a cargo ship at Southampton with a view to being classed BS (West Indian Service) with the Society. The plans of the structural alterations have been approved at this office.

It is understood that the work is nearing completion and the surveyors have requested the load line assignment note. The form LL40/D, embodying the conditions of assignment and load line computation, which has been completed at this office, is enclosed and you might be good enough to send the assignment note to the Surveyors at Southampton.

Yours faithfully,

(Signed)

For the Surveyors.
