I have surveyed the above ship in accordance with the Rules for CONDITION OF CLASS AND OUTSTANDING LOADLINE REPAIRS.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated. For outstanding Loadline repairs refer Rotterdam Cert C11(d) dated 13th November, 1964.

NOW DONE:

100 wood hatch boards renewed. 7 Air pipe goose necks on weather deck renewed. 5 Screw tops on boat deck ventilators repaired. Doubling plates electrically welded over deck plating around fiddley openings and funnel.

TO COMPLETE the Loadline Survey the Starboard Boiler Room and Port Aft Engine Room ventilator **trunks** on boat deck (found wasted & holed & temporarily repaired by fitting cement boxes) have to be repaired.

The Master states that repairs will be effected in Bombay, to which port the ship is proceeding, via Chalna. The Bombay Surveyors have been advised.

The Master states that this chain cable will be renewed when the ship returns to the U.K. in June, 1965.

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)
