

25 SEP 1964

Ship's name YOUSUFBAKSH

Port KRH

No. 528

Class is subject to -

Last survey date 8-8-64

main injection valve and fire hydrant sea injection cock, both being renewed by 10/64.

General examination in accordance with Circular No 1959 now held for proposal to postpone ES until 9/64

The Surveyor reports the main condenser forward door, which had been previously renewed but as the pitch of bolt holes was not correct ~~the~~ a number of the holes had to be increased in size. Subsequently leakage occurred at the joint. The original door now temporarily refitted, another new door having been ordered.

The Surveyor recommends the main condenser forward door be renewed by the end of 10/64.

It is submitted that this vessel is eligible to remain as CLASSED, the proposal to postpone the ES also merits approval.

Subject approved and as now recommended
