**This is to Certify** that

E.B. Robison

the undersigned Surveyor to this Society did at the request of Page-Hersey Tubes Ltd., attend at their Works at Welland, Ont., on March 2nd, 1945, for the purpose of inspecting 164 lengths of Steel Pipe, weighing 19,600 lbs. to order No. 12472 of St. John Dry Dock & Shipbuilding Co., East St. John, N.B.

Samples selected from the pipes were subjected to flattening, tensile and bend tests at the Maker's Works in accordance with the Rules of this Society with satisfactory results.

The steel from which the pipe was made is certified by the Makers to have been manufactured by the Open Hearth process, and the pipes are certified to have withstood an internal hydrostatic test pressure of the following, per square inch:

1½", 2", 2½", 3", 3½", 4" Standard Black Seamless Steel Pipe	-1000 lbs.
2" Extra Strong Black Seamless Steel Pipe	-2500 lbs.

Each pipe was examined internally and externally by the undersigned Surveyor, and so far as could be seen, they are sound and free from defects.

The following marks have been stencilled on the pipes for identification:

LLOYDS 2.3.45. E.B.R.

See also signed Advice Note attached hereto.

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
