

Steamer "CABEDELLO"

This ship was last submitted to Special Survey in October 1955 and sustained fire damage in September 1960 as a result of which the ship was laid up at Rio de Janeiro and the Committee qualified the class by the notation "Repairs required - class suspended 12.60".

It was stated that the ship might be broken up but no action has yet been taken.

As more than eight years have elapsed since the last Special Survey was held, it is submitted that the class be omitted from the Register Book and the notation "Classed LR until October 1959" be recorded in the Register Book.
