Plans for this ship were dealt with in New York in April 1944, and on subsequent dates, for the class 100A1. The scantlings and arrangements approved by Mr. Bennett were concurred in but it was suggested to him that the bilge keel be scalloped at butts and at butts of bilge strake, and he reported later that this had been arranged.

There is nothing further in the correspondence affecting the First Entry Report which is not covered by the approved plans.

8th October, 1945.
