

Fbd. C.F.A.

17th March, 1960.

Dear Sir,

Steamship "Halcyon Med"

The above ship is under survey at this port and the Owners representative has requested Non-Convention Load Line Certificates and a Safety Radiotelegraphy Survey. The Owners Agents inform us that the necessary official authorisation for the Society to deal with these matters has been obtained and a letter to this effect will be sent direct to you from the Lebanese Consulate in London.

The ship is in possession of L.L.3 Certificates No.54110 issued 10th March, 1959, valid until 30th September, 1961, and have been endorsed for Annual Load Line Survey at Port Said on the 15th January, 1960. A modified Load Line Survey has now been carried out and we enclose our Forms C.11(b) and C.12(a) duly completed.

Regarding the Safety Radiotelegraphy Survey this is being dealt with by the local M.O.T. Surveyor and his report will be sent to you when the survey is completed for issue of a Non-Convention Certificate.

Yours faithfully,
THE SURVEYORS,
Per :-

(Signed) Thomas Donaldson.

The Secretary,
LONDON.
