Dear Sirs,

"MOUNT OLYMPUS" 1957,

Fbd.

A survey of this vessel's Safety Equipment was recently completed at New Orleans with the exception of the following:-

Battery for the daylight signalling lamp to be made portable.

The Owners intend to deal with this and any other matters relating to the ship at your Port in August next and I shall, therefore, be glad if you will be guided accordingly.

As regards tonnage measurement I would draw your attention to the fact that the draught marks require to be verified in the event of the vessel being examined in drydock.

A further communication will be addressed to you regarding Classification.

Yours faithfully,

Classification Committee.

pro Secretary.

The Surveyors,

CFA.

P. B. Fraser Esq.
