

sp "Smerdis"

Gls. Rpt. 36803.

This vessel's machinery has been built under special survey, on being tested under working conditions the centrifugal circulating pump was found to be too small, a connection has been made to the ballast pump and the machinery is now satisfactory as a temporary measure for a trip to Nantes & back.

It is submitted that
this vessel ^{will be} is eligible for
THE RECORD.

+ LMC 4.17. when
a satisfactory centrifugal circulating pump
has been fitted & tested.
