DNS/SO

Dear Sirs,

m.v. "ALVA CAPE".

The Reports of the survey carried out by the Society's Surveyors at Madras on the 1st February have now received the consideration of the Committee.

At that time temporary repairs were effected to the auxiliary condenser overboard discharge valve chest, which was found to be wasted and holed, and it was recommended that this chest should be renewed by the end of May 1965.

The Committee have continued the vessel's class subject, *inter alia*, to this matter receiving attention by that time.

Yours faithfully,

Assistant Clerk to the
Classification Committee

The Shipping Management S.A.M.,
27, Boulevard d'Italie,
Boite Postale 130,
Monte Carlo,
MONACO.
