

Ship's name

"ALVA CAPE"

Port

SNG

No. 17125

Class is subject to

NIL

Last survey date 18.1.64.

Before this case is dealt with, the Surveyor should be informed that the Rotterdam Surveyors were not satisfied with the operation of the safety valves of both boilers at the Survey held in July last, and confirmation is, therefore, desired that the safety valves of both were now adjusted under steam and found in order. *W20/2*
