Dear Sirs,

M.S. "ALVA CAPE"

Reports of surveys held at Rotterdam and Mormugao have now received the consideration of the Committee, and a record of Drydocking 7.63 and the notation Steampipe Survey 7.63 in respect of the survey at Rotterdam have now been assigned.

As a result of the survey at Mormugao, class has been continued subject, inter alia, to stem and stem plating being specially examined and dealt with as necessary by the end of March, 1964.

To complete the Auxiliary Boiler Survey for a notation of ABS 7.63, the safety valves of both boilers remain to be re-adjusted, and it is concluded that you will make early arrangements to complete this survey.

Yours faithfully,

Deputy Clerk to the
Classification Committee
