Dear Sir,

m.s. " ALVA CAPE " Rot. rpt. 56626

In reply to your classing letter of the 29th ultimo in respect of the above named ship we can inform you as follows:

Selected lengths of the 6" bore steel steampipes were tested and found in order on the 16th of July last, this was arroneously omitted from the report for which we apologize.

Regarding the safety valves it was promised by the Owners' Superintendent to have same overhauled and re-adjusted first opportunity available.

Mr. Schat should have stated in mentioned report that the valves failed to blow instantaneously instead of leaking, which was most probably misunderstood.

Yours faithfully,

The Secretary,
LONDON
