Electrical Surveyor,  
Register of Shipping,  
Brett Street,  
LONDON.

Sirs,

Messrs. Wm. Gray's No. 1180 SHIP.  
2 - C.&I. 15 K.W. Generators.  
Machine Numbers 30992/30993.

I understand from our Newcastle Office, that you have been in contact with them regarding our Test Certificates Nos. 5070.G, 5071.G, covering the D.C. Generators supplied for the above

On investigation we find an error was made in our records Dept. Wash Test being stated as 1500 volts instead of 2000 volts was actually carried out.

Enclosed herewith are revised duplicate copies of the above and in order to avoid any further mis-understanding we shall be glad if you would return or destroy any of the original which you may have to hand.

We apologise for any inconvenience caused in this matter and thank you for bringing the matter to our notice. Assuring you of our careful attention.

Yours faithfully,  
CAMPBELL & ISHERWOOD LTD.,

*Wm. Gray*
