Our Ref. Ship 1098/SF/gm

Your Ref.

Dear Sir,

S/S "GRIFONE"

We refer to your letter dated 20th March regarding the main boiler Survey of the above ship.

The Owners have now advised us that the main boiler Survey was commenced at Venice on the 18th and 21st November 1966 and erroneously our Society's Surveyors were not called in.

At that time the Starboard and Centre Main Boilers were examined by the Registro Navale Italiano's Surveyors and afterward the Safety valves of the Centre boilers were adjusted under steam.

The Owners have now forwarded to us the enclosed copy of Registro Navale Italiano Report of Survey No.1311 dated 29th November 1966 covering the Survey indicated in the above paragraph, and they requests to the Committee that these two main boilers may be credited to the present MBS commenced at this Port on the 6th to 10th February 67 as per our Rpt. 9B No. 8889.

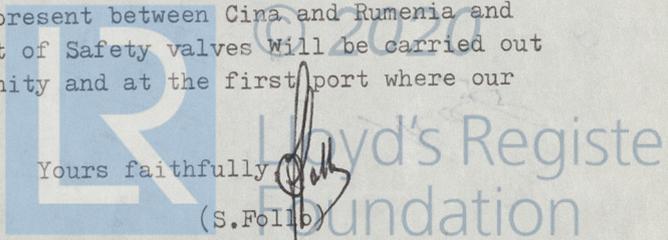

If this proposal is favourably accepted by the Committee to complete the MBS for the record of 11.66 the Safety valves of the Starboard boiler remain to be adjusted under steam.

At this regard the Owners have now informed us that the ship is trading at present between Cina and Rumenia and therefore the adjustment of Safety valves will be carried out at the earliest opportunity and at the first port where our services are available.

Yours faithfully,

(S. Folip)

The Secretary,  
L O N D O N
