LONDON, E.C.3, England.

Dear Sirs,

Re: m.v. PHOENICIAN STAR

We beg to bring to your notice that we are Managers of the above vessel owned by M/s. Leecho Steamship Co. S.A. of Panama. This vessel has three generators on board as follows:-

1. One steam - Campbell and Isherwood U.K. make - 12.5 K.W.
110 Volts - 114 Amps. D.C. 1936.
2. One Diesel Yanmar make - 20 KW. 2 Cylinder. 110 Volts
DC-182 Amps.-1958.
3. One Diesel Yanmar make - 30 KW -4 cylinder 110 Volts
DC-1957.

The generator under item No.3 which has a capacity of 30KW has its shaft broken and therefore ~~needs~~ requires replacement or repair which would involve ~~into~~ a substantial cost.

In view of the old age of the vessel and a short future life, we would not like to incur expenses which can be avoided and would therefore request you to kindly consider the possibility of granting us permission to sail the vessel with the remaining two generators on board for rest of her life. We hope that our request would favourably be considered and awaiting your reply, we remain,

Yours faithfully,
for MEDITERRANEAN MARITIME COMPANY

(S.M. Maulabaksh)
