

(2)

26th September, 1949.

Dear Sirs,

S.S. "BOKKEVELD"

Reverting to the letter dated 24th ultimo sent you by our Liaison Office at Blythwood Square, Glasgow, I am instructed to acquaint you that the Society's Surveyor who carried out the confirmatory survey required in this case has reported adversely upon the vessel's condition and as he is unable to confirm that the survey carried out by the former Non-Exclusive Surveyor to the British Corporation at Port Natal was efficiently done, the Classing Committee of the fused Society have had no option but to decline to assign any classification or to authorise the issue of a load line certificate until such time as the Special Survey is re-held by the Society's Surveyors and all repairs effected to their satisfaction.

Yours faithfully,

Messrs. Arden Hall S.S. Coy (Pty) Ltd.
17, Long Street,
CAPE TOWN, S. Africa.
