Dear Sir, m.v. "ACCRA" and "APAPA".

We acknowledge receipt of your letter of the 5th instant, suggesting that some tell-tale should be fitted on the Control Valve to the Waste Heat Belts of the Boilers, indicating on the Starting Platform when these valves are open or shut.

We are looking into this, and if at all possible, this fitment will be installed during the "ACCRA'S" stay in port.

Yours faithfully,
(Sgd.) A.M. Bennett.
Chief Superintendent Engineer.
