71, Fenchurch Street, E.C. 3.

30th March, 1938

Dear Mr Andrews,

With reference to Glasgow official letter of yesterday requesting certificate for the RME survey just completed on the motorship "SALACIA" Mr Ritchie has asked me to ascertain whether the brine pipes were tested at this time and whether the hatch grids were seen in place or separately. Perhaps you will wire me these particulars in the morning.

It is realised that on previous certificates no endorsement^e to this effect has been made in the case of this vessel, but according to Circular 1610 Donaldson Bros require the test to be made.

Trusting you are keeping fit and with kindest regards

Yours sincerely

M.M.E.Andrews Esq., .

GLASGOW.
