9,33  
Shl. dk. with fbd.  
s.s.S.Fo.No.3-4,30  
Fit. for oil fuel etc.

-----  
The Second Special Survey No.  
this vessel in April last.

A communication has now been received from the Chief Surveyor for the U.S.A. & Canada, forwarding the Owners stating that this vessel has been accepted by the American Bureau of Shipping for class in that Society.

This follows a decision by the Owners (conveyed in a letter from the Society's New York Office in February last) to withdraw all the vessels of their fleet gradually from the Society's class.

The case was before the American Committee on the 28th ultimo, when it was decided that the vessel's character should be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
