21st February, 1951.

Dear Sirs,

Turbo Electric Tanker "SAN SALVADOR"

Classn (S)

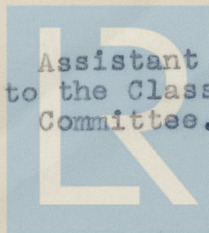

EJB

With reference to your Report No.121 on the water tube boilers supplied to this ship, I shall be glad if you will confirm whether the safety valves are of "High Lift" or "Improved High Lift" type, as your Rpt.7a covering these items cannot be traced in this Office.

Yours faithfully,

The Surveyors,
BIRMINGHAM.

Assistant
Clerk to the Classification
Committee.
