Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

24th February, 1921.

I am directed to acknowledge the receipt of your
of the 23rd instant, respecting the subdivision loading
ed for the S.S. "SCYTHIA", Messrs. Vickers' No. 493, and
at two alternative lines have been approved for carrying
gers under different conditions.

The freeboard has been assigned to place the centre
disc to correspond to the maximum loadline of 31'-5"
draught, and an additional line 1'-5" below the centre
disc has been assigned to correspond to the approved
dre moulded draught of 30 ft.

In this case the freeboard has been assigned from the
k, the same as that of the "SAMARIA", referred to in my
of the 10th December last, and the position of the centre
disc will therefore be 13'-10" from the statutory deck
above the 2" Veitchi on the steel "D" deck, for all

I am, Sir,

Your obedient Servant,

Secretary.

aniel, Esq.,
stant to the Principal Ship Surveyor,
BOARD OF TRADE,
54, Victoria Street,
WESTMINSTER, S.W.1.
