24th April, 1958.

The Lloyd's Register of Shipping,
10 A/B, Asia Insurance Building,
SINGAPORE.

Dear Sirs,

S.S. "SAIDJA"

We send you herewith four (4) sets of drawings of our S.S. "SAIDJA" pre-special survey drill tests and gaugings carried out in conjunction with your Surveyor at Keppel Harbour Dockyard - Singapore-during March 1958.

The vessel is due for Special Survey in December of this year, and in order to enable us to assess whether or not it will be an economical proposition to put "SAIDJA" through this Survey, we are anxious to know your recommendations in connection with the following proposals:-

1. Carry out repairs to retain the vessel's present class i.e. "For Service in the East Indian Archipelago".
2. Carry out all repairs necessary to assign the vessel's previous class i.e. "Class 100A1 carrying petroleum in bulk" which notation will make the ship again suitable for world wide trading.

Thanking you for the attention to be given and awaiting your reply in due course.

Yours truly,
For: SHELL TANKERS LIMITED,

Signed. © 2021
