

"EMPIRE MIGHT"

---

The reply from the Glasgow Surveyors has been noted but in view of the remarks contained in the last paragraph of their letter it should be made clear to the Greenock Surveyors that the total N.H.P. of 1372 which they have now confirmed is the figure which will appear in the Register Book and on which the fees for future Special Surveys will be based.

As regards new construction however, the fee for the L.P. turbines is as already quoted, namely, £41-12-0. but the fee for the remainder of the machinery should be based on a N.H.P. of 1146 which would be the N.H.P. if no turbines were fitted.

It is submitted the Greenock Surveyors be advised accordingly as a guide in future cases.
