7th August, 1935.

Dear Sir,

S. With reference to Glasgow Report No.55954, of survey of the new steamer "MARWARRI", I shall be glad if you will be good enough to enquire of the Surveyor and let me know whether the safety valves are fitted with easing gear and were adjusted under steam to the approved pressure; the intermediate boiler shell seams are treble riveted and also the tenacity of the girders is 29 to 33 tons, as approved.

I am, Dear Sir,

Yours faithfully,

Clerk to the  
Classification Committee.

The Secretary,  
GLASGOW.
