

26 JUN 1934

s.s. "CARIPITENO" - Schiffswerft Memel Lindenau & Cie., Yard No.53

This case is fully stated in endorsement dated 16.6.34 when the Builders objected to the Surveyor having included the expenses for their Yard No.54 in the account rendered to them for fees and expenses in connexion with Yard No.53

The matter was referred to Mr. Dykes who states in reply that as all visits paid to No.54 coincided with visits paid to No.53, and that the expenses were incurred over the period of the last three years, he considered it quite correct to include all outstanding expenses in the account.

It is submitted the Surveyor be instructed to issue an amended account for the fees in connexion with No.53 plus the proportion of the expenses chargeable to that ship.

The expenses for No.54 should be included in the account for fees and expenses charged when that vessel is completed.
