ENCLOSURE.

2nd August, 1923.

Dear Sirs,

I duly received your letter of the 27th ultimo respecting the fees for the survey of the motor vessel "CRISTO" at this port in March last, and with regard thereto I have to explain that fees for surveys carried out on vessels classed in the Society's Register Book are held to be charges against the steamer herself, and that these will require to be paid in order that the class may be duly maintained.

In the circumstances, I return herewith the account for the fees in question, and shall be glad to receive a remittance from your good selves in order to the retention of the class.

I am, Dear Sirs,

Yours faithfully,

Assistant to the Secretary.
