Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

24th May, 1911.

Dear Sir,

With reference to the Classing Letter sent to you on the 1st instant respecting the steamer "ALABAMA", recently completed by the Chantiers de Normandie, of Rouen, the machinery of which vessel was built under your survey by the Soc. des Ateliers & Chantiers de France, I have to inform you that the Nantes Surveyor has now forwarded a letter which he has received from the Owners of the vessel, from which it appears that the machinery certificate has not yet reached their hands.

This certificate was forwarded to you on the 4th instant, and I shall be glad, if the same has been handed over to the Engine Builders, if you will ascertain from them whether it is still in their possession, in which case you will perhaps be good enough to ask them to forward same to the Owners.

I shall be glad to learn in due course how the matter stands.

I am, Dear Sir,  
Yours faithfully,

O.J. Trechmann, Esq.,  
DUNKIRK.

pro Secretary.
