

"HELENA".

Classification.

The machinery has been completely opened up and examined and screw shaft surveyed.

The scantlings of the engines and the electrical installation and air receivers are such as can be accepted.

Some modifications are required in the pumping arrangements as detailed in endorsement dated 2.8.46.

IT IS SUBMITTED for consideration that the record LMC 3.46 S 3.46 might now be assigned, subject to the pumping arrangement being amended and as per endorsement, 2.8.46.

These amendments are not of major importance

Oil engines 4 S.C.S.A.

3 Cy. 11" - 13 $\frac{5}{4}$ " MN = 35.

Forward amended pumping plan to Amsterdam. ~~X~~
