LONDON.

S.S. "VALLARSA" - Conversion into a Tanker.

I have been entrusted with the preparation of suitable plans by the Works who have to convert the Cargo Vessel "VALLARSA" ex "WAR PROPHET" into a Tanker.

I submitted the question to Mr. Turnbull, and as it is a case of cylindrical tanks, he advised me to write direct to you to have your opinion on this type of tanks, which in the present case appears to be advisable.

I am sending you a statement of proposed methods and some plans, and I beg to ask you to be good enough to examine them, and send me a copy corrected according to your views.

The Management of the Lloyd Mediterraneo-the Owners of the vessel - have approved this procedure.

Thanking you, Yours &c.

Enclosures.

A statement and the following plans.
Plan of original capacity.
Watertight bulkheads.
Capacity in accordance with Proposal "B"
Longitudinal section
Deck plans.
