"ANDROMEDE No. I"

A proposal to repair the main engines of this vessel was fully stated in an endorsement dated 21. 1. 47.

A letter has now been received from the Marseilles Surveyors in which the Owners have put forward a proposal for amended repair, consisting principally in renewing the HP and LP cylinders and repair to IP cylinder feet by welding according to an attached plan.

IT IS SUBMITTED that this method of repair could be approved provided additional mild steel re-inforcements be fitted to the IP cylinder to the Surveyor's satisfaction.
