NTAURE"
- (1) That the Owners be strongly advised to re-
place the damaged engine completely by new
or approved second hand engine.
 - (2) In the event of the suggested repairs to the
existing engine being decided upon, the repair
at the outset can only be considered as an
emergency repair which will require to be kept
under observation by frequent examinations until
it is proved reliable.
 - (3) It is suggested that until the welding has proved
itself, strongbacks should be fitted over the
cylinder tops where considered necessary.
or mild steel reinforcements.
 - (4) The strongbacks be removed and the condition
against the class reviewed in accordance with
the results of examinations.
