13th August, 1947.

Dear Sirs,

I am in receipt of your letter of the 9th instant respecting the Crane Steamer "LISCA" ex "LISCARD", the contents of which are noted.

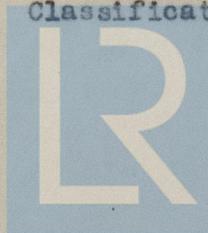

With regard thereto I have to say that provided a comprehensive General Examination is made including drydocking, the proposal to reinstate the class will be approved. The Boiler and Screwshaft Surveys should also be carried out and in this connection I think it well to inform you that the original class was subject to the centre boiler not being used until repaired. The working pressure was 180 lb.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,

COPENHAGEN.
