

39.72

upper deck beams at side.

Built at

Delft

Messrs. J. Berg's no 141.

Submitted the Amsterdam Surveyors he informed that, in accordance with the Rules printed in German, the sheerstrake should be $940 + 13 \text{ mm}$.

As the breadth of the sheerstrake however has been increased to 1060 mm , the thickness can, in the circumstances be approved at 12.3 mm (to 12.6 mm), without further compensation.
