Vessel's Name:

S.S. "FENCER."

I refer to your post-card dated 30th June 1950 concerning the request of datas of our s.s. "COLOMBO."

For your information, please note that the above vessel is the former s.s. "FENCER" who has been surveyed at the plant of Gibbs Corporation, Jacksonville-Florida-U.S.A. by your representative Mr. Stervart, during the conversion's works performed at the Shipyard, under the control of the Lloyd's Register of Shipping.

I think that from the Surveyor's Report you can get all the datas mentioned in your post-card, with greater reliability than we could do.

In your records you should have also the report concerning the conversion's works of our s.s. "ATHELING", now s.s. "ROMA", works performed and surveyed as for the s.s. "FENCER."

It is our intention to complete in the next future all pending inspections in order to fulfill all requirements for the best classification of the aforementioned vessels, we will be very grateful if you would send to us the reports concerning the works done at Gibbs Corporation, and the pending recommendations.
