21st July, 1945.

MEMORANDUM.

"EMPIRE ANNAN" ex. Masuren.

I have examined two of the corroded rivets recently handed to me which, I understand, are representative of what was found on the shell of this vessel.

These are unmistakably ~~the~~ "Rimmed" Steel, as will be apparent from the sulphur prints attached. I should explain that the lighter of these has been in slightly less intimate contact with the bromide paper than its counterpart, Print A.

C. N. Stuart, Esq.,  
MIDDLESBROUGH.
