28th August, 1928.

Dear Sirs,

H.

I have to acquaint you that the Society's Surveyors at Newcastle report that a new Donkey Boiler has been fitted on the steamer "SAN NAZARIO" now named "THORSHAMMER", and that the vessel will be eligible for the record B.S. 7,28 when the safety valves of this boiler have been adjusted to 100Lb. per square inch, and the connecting steam pipes to the boiler tested.

It is stated that this will be done at Sandefjord, to which port the vessel is proceeding, and I accordingly await the receipt of your report in due course.

I may add that the items mentioned in the Special Reasons List have been satisfactorily dealt with at Newcastle, and the vessel's class has been continued without condition in this respect.

I am, Dear Sirs,

The Surveyors,

Yours faithfully,

OSLO.
